

Sri Lanka Institute of Information Technology

Web-based food ordering system
2026-Y2-S1-MLB-B7G1-02

Software Engineering | SE2030
B.Sc. (Hons) in Information Technology

Group Details

Group ID : 2026-Y2-S1-MLB-B7G1-02

Topic : Web Food Ordering System

Group Members :

IT25101692	Wijesingha A.S.
IT25102506	Isurujith M. U.
IT25103590	Sajeenth T.
IT25101506	De Silva K.T.D.A.
IT25103393	Diyana H.E.S
IT25100590	Rishan J R

Scrum Roles

Role	Assigned To	
Product Owner	IT25102506	Isurujith M.U.
Scrum Master	IT25103590	Sajeenth T.
Developer 1 _(dev A)	IT25101692	Wijesingha A.S.
Developer 2 _(dev B)	IT25101506	De Silva K.T.D.A.
Developer 3 _(dev C)	IT25103393	Diyana H.E.S
Developer 4 _(dev D)	IT25100590	Rishan J R

Identified Personas

1. **Customer**

Role: General Public

Goal: Order food quickly and easily from nearby restaurants for pickup or delivery.

Frustration: Long wait times, unclear order status, limited payment options.

2. **Branch Manager**

Role: Manages a specific restaurant branch

Goal: Efficiently manage menu items, monitor incoming orders, and evaluate branch performance.

Frustration: Manual order tracking causes delays and mistakes; hard to update menu/pricing quickly.

3. **Delivery Rider**

Role: Delivers orders from restaurant to customer

Goal: Get clear delivery assignments with accurate addresses and control my availability for assignments.

Frustration: Unclear pickup/drop details, no way to mark myself unavailable, no order status visibility.

4. **Customer Service Supervisor**

Role: Handles customer complaints and support queries

Goal: Resolve customer issues (wrong orders, delays, service quality) quickly and monitor reviews/ratings.

Frustration: No centralized system to view order/customer history, slow complaint resolution process.

5. **Operations Manager**

Role: Oversees overall platform operations across branches

Goal: Monitor performance across all branches, generate reports, optimize delivery efficiency.

Frustration: Lack of consolidated data/reports, difficult to spot operational bottlenecks.

6. **System Administrator**

Role: Manages system settings, user accounts, and platform security

Goal: Ensure system runs smoothly, manage user roles/permissions, maintain data security.

Frustration: Manual user management is time-consuming, difficult to track system errors/logs.

User Stories

Customer

1. As a Customer, I want to browse restaurant menus so that I can decide what to order.
2. As a Customer, I want to add items to my cart so that I can order multiple dishes at once.
3. As a Customer, I want to select a payment method (Card or Cash on Delivery) so that I can complete checkout in my preferred way.
4. As a Customer, I want to place pickup or delivery orders so that I can receive my food in my preferred way.
5. As a Customer, I want to track my order status so that I know when it will be ready or arrive.

Branch Manager

6. As a Branch Manager, I want to add and update menu items so that customers see accurate offerings.
7. As a Branch Manager, I want to view incoming orders so that I can prepare food on time.
8. As a Branch Manager, I want to mark items as unavailable so that customers don't order out-of-stock items.
9. As a Branch Manager, I want to monitor branch performance so that I can evaluate branch operations.

Delivery Rider

10. As a Delivery Rider, I want to view assigned delivery orders so that I know what to pick up and deliver.
11. As a Delivery Rider, I want to view the customer's delivery address so that I can deliver orders to the correct location.
12. As a Delivery Rider, I want to update order status (picked up/delivered) so that customers and staff are informed.
13. As a Delivery Rider, I want to set my availability status so that I am assigned orders only when I am active.

Customer Service Supervisor

14. As a Customer Service Supervisor, I want to view customer complaints so that I can respond and resolve issues.
15. As a Customer Service Supervisor, I want to access order history so that I can investigate disputes accurately.
16. As a Customer Service Supervisor, I want to resolve and close customer complaints so that customer issues are properly addressed.
17. As a Customer Service Supervisor, I want to manage customer reviews and ratings so that service quality can be monitored.

Operations Manager

18. As an Operations Manager, I want to view performance reports across all branches so that I can identify top performers.
19. As an Operations Manager, I want to monitor delivery times so that I can optimize efficiency.
20. As an Operations Manager, I want to generate monthly revenue reports so that I can make business decisions.
21. As an Operations Manager, I want to identify frequently delayed branches so that I can address bottlenecks.

System Administrator

22. As a System Administrator, I want to create and manage user accounts so that only authorized users access the system.
23. As a System Administrator, I want to assign roles and permissions so that users access appropriate features only.
24. As a System Administrator, I want to monitor system logs so that I can detect and fix errors quickly.
25. As a System Administrator, I want to configure system settings (service areas, operating hours) so that the platform operates correctly.

Product Backlog

ID	User Story	Persona	Priority
PBI-01	As a Customer, I want to browse restaurant menus so that I can decide what to order.	Customer	High
PBI-02	As a System Administrator, I want to create and manage user accounts so that only authorized users access the system.	System Administrator	High
PBI-03	As a System Administrator, I want to assign roles and permissions so that users access appropriate features only.	System Administrator	High
PBI-04	As a Branch Manager, I want to add and update menu items so that customers see accurate offerings.	Branch Manager	High
PBI-05	As a Customer, I want to add items to my cart so that I can order multiple dishes at once.	Customer	High
PBI-06	As a Customer, I want to select a payment method (Card or Cash on Delivery) at checkout so that I can complete my order.	Customer	High
PBI-07	As a Customer, I want to place pickup or delivery orders so that I can receive my food in my preferred way.	Customer	High
PBI-08	As a Branch Manager, I want to view incoming orders so that I can prepare food on time.	Branch Manager	High
PBI-09	As a Delivery Rider, I want to view assigned delivery orders so that I know what to pick up and deliver.	Delivery Rider	High
PBI-10	As a Customer, I want to track my order status so that I know when it will be ready or arrive.	Customer	Medium
PBI-11	As a Delivery Rider, I want to view the customer's delivery address so that I can deliver to the correct location.	Delivery Rider	Medium
PBI-12	As a Delivery Rider, I want to update order status (picked up/delivered) so that customers and staff are informed.	Delivery Rider	Medium
PBI-13	As a Branch Manager, I want to mark items as unavailable so that customers don't order out-of-stock items.	Branch Manager	Medium
PBI-14	As a Customer Service Supervisor, I want to view customer complaints so that I can respond and resolve issues.	Customer Service Supervisor	Medium

PBI-15	As a Customer Service Supervisor, I want to access order history so that I can investigate disputes accurately.	Customer Service Supervisor	Medium
PBI-16	As a Customer Service Supervisor, I want to resolve and close customer complaints so that issues are properly addressed.	Customer Service Supervisor	Medium
PBI-17	As an Operations Manager, I want to view performance reports across all branches so that I can identify top performers.	Operations Manager	Medium
PBI-18	As an Operations Manager, I want to monitor delivery times so that I can optimize efficiency.	Operations Manager	Medium
PBI-19	As a System Administrator, I want to configure system settings (service areas, operating hours) so that the platform operates correctly.	System Administrator	Medium
PBI-20	As a Branch Manager, I want to monitor branch performance (orders, revenue, ratings, etc.) so that I can evaluate operations.	Branch Manager	Low
PBI-21	As a Delivery Rider, I want to set my availability status so that I am assigned orders only when active.	Delivery Rider	Low
PBI-22	As a Customer Service Supervisor, I want to manage customer reviews and ratings so that service quality is monitored.	Customer Service Supervisor	Low
PBI-23	As an Operations Manager, I want to generate monthly revenue reports so that I can make business decisions.	Operations Manager	Low
PBI-24	As an Operations Manager, I want to identify frequently delayed branches so that I can address bottlenecks.	Operations Manager	Low
PBI-25	As a System Administrator, I want to monitor system logs so that I can detect and fix errors quickly.	System Administrator	Low

Sprint Backlog

Sprint 1

Duration: Week 4 – Week 7

Focus: Core Authentication & Menu Setup

Sprint ID	User Story	Priority
SP1-01	System Admin: Create/manage user accounts	High
SP1-02	System Admin: Assign roles and permissions	High
SP1-03	Customer: Browse restaurant menus	High
SP1-04	Branch Manager: Add/update menu items	High

Task Breakdown — SP1-01 (User Account Management)

Task ID	Task	Est. Hours	Assigned To
T-01.1	Design registration/login UI	5	Dev A
T-01.2	Build backend API for account creation	7	Dev B
T-01.3	Implement password encryption/security	4	Dev B
T-01.4	Test account creation flow	3	Dev C

Task Breakdown — SP1-02 (Roles & Permissions)

Task ID	Task	Est. Hours	Assigned To
T-02.1	Design role-permission matrix	3	Dev A
T-02.2	Implement role-based access control	6	Dev B
T-02.3	Test permission restrictions per role	3	Dev C

Task Breakdown — SP1-03 (Browse Menus)

Task ID	Task	Est. Hours	Assigned To
T-03.1	Design menu browsing UI	5	Dev D
T-03.2	Build backend API to fetch menu data	6	Dev C
T-03.3	Test menu display across devices	3	Dev D

Task Breakdown — SP1-04 (Add/Update Menu Items)

Task ID	Task	Est. Hours	Assigned To
T-04.1	Design admin interface for menu CRUD	5	Dev A
T-04.2	Build backend endpoints (add/edit/delete item)	7	Dev B
T-04.3	Test menu update flow	3	Dev D

Sprint 2

Duration: Week 8 – Week 11

Focus: Cart, Checkout & Order Receiving

Sprint ID	User Story	Priority
SP2-01	Customer: Add items to cart	High
SP2-02	Customer: Payment Method Selection (Card/COD)	High
SP2-03	Customer: Place pickup or delivery orders	High
SP2-04	Branch Manager: View incoming orders	High
SP2-05	Delivery Rider: View assigned delivery orders	High

Task Breakdown — SP2-01 (Cart)

Task ID	Task	Est. Hours	Assigned To
T-05.1	Design cart UI (add/remove items)	4	Dev D
T-05.2	Implement cart logic (quantity, total calc)	5	Dev C
T-05.3	Test cart functionality	2	Dev A

Task Breakdown — SP2-02 (Payment Method Selection)

Task ID	Task	Est. Hours	Assigned To
T-06.1	Design payment method selection UI (Card/COD)	3	Dev A
T-06.2	Implement backend logic to store selected payment method	4	Dev B
T-06.3	Test payment method selection flow	2	Dev C

Task Breakdown — SP2-03 (Place Pickup/Delivery Order)

Task ID	Task	Est. Hours	Assigned To
T-07.1	Design order type selection UI (pickup/delivery)	3	Dev D
T-07.2	Build backend logic to process order placement	6	Dev C
T-07.3	Test order placement flow	3	Dev D

Task Breakdown — SP2-04 (Order Receiving Dashboard)

Task ID	Task	Est. Hours	Assigned To
T-08.1	Design branch order dashboard UI	4	Dev A
T-08.2	Build order notification/display logic (API)	6	Dev B
T-08.3	Test order receiving flow	3	Dev A

Task Breakdown — SP2-05 (Rider Assigned Orders)

Task ID	Task	Est. Hours	Assigned To
T-09.1	Design rider order list UI	4	Dev D
T-09.2	Build order assignment backend logic	6	Dev C
T-09.3	Test rider order assignment	3	Dev D

Sprint 3

Duration: Week 12 – Week 15

Focus: Order Tracking, Delivery Management & Support

Sprint ID	User Story	Priority
SP3-01	Customer: Track order status	Medium
SP3-02	Delivery Rider: View customer's delivery address	Medium
SP3-03	Delivery Rider: Update order status	Medium
SP3-04	Branch Manager: Mark items unavailable	Medium
SP3-05	Delivery Rider: Manage availability status	Medium
SP3-06	Customer Service Supervisor: View complaints	Medium
SP3-07	Customer Service Supervisor: Access order history	Medium

Task Breakdown — SP3-01 (Order Tracking)

Task ID	Task	Est. Hours	Assigned To
T-10.1	Design order tracking UI	4	Dev A
T-10.2	Implement order status update logic	5	Dev B
T-10.3	Test tracking accuracy	2	Dev C

Task Breakdown — SP3-02 & SP3-03 (Delivery Address Display & Status Update)

Task ID	Task	Est. Hours	Assigned To
T-11.1	Design delivery address display UI	3	Dev D
T-11.2	Build status update UI (picked up/delivered)	4	Dev A

Task ID	Task	Est. Hours	Assigned To
T-11.3	Test address display & status update flow	3	Dev D

Task Breakdown — SP3-04 (Mark Items Unavailable)

Task ID	Task	Est. Hours	Assigned To
T-12.1	Add availability toggle in menu UI	2	Dev D
T-12.2	Update backend to reflect availability	3	Dev B

Task Breakdown — SP3-05 (Manage Rider Availability)

Task ID	Task	Est. Hours	Assigned To
T-13.1	Design rider availability toggle UI	2	Dev A
T-13.2	Build backend logic for availability status	3	Dev B
T-13.3	Test rider availability flow	2	Dev C

Task Breakdown — SP3-06 & SP3-07 (Complaints & Order History)

Task ID	Task	Est. Hours	Assigned To
T-14.1	Design complaint submission/view UI	4	Dev A
T-14.2	Build backend for complaint storage/retrieval	5	Dev C
T-14.3	Build order history lookup feature	4	Dev B
T-14.4	Test support module	3	Dev D

Sprint 4

Duration: Week 16 – Week 19

Focus: Complaint Resolution, Reports & System Configuration

Sprint ID	User Story	Priority
SP4-01	Customer Service Supervisor: Resolve and close complaints	Medium
SP4-02	Operations Manager: View performance reports	Medium
SP4-03	Operations Manager: Monitor delivery times	Medium
SP4-04	System Admin: Configure system settings	Medium
SP4-05	Branch Manager: Monitor branch performance	Low
SP4-06	Customer Service Supervisor: Manage reviews and ratings	Low
SP4-07	Operations Manager: Generate monthly revenue reports	Low
SP4-08	Operations Manager: Identify delayed branches	Low
SP4-09	System Admin: Monitor system logs	Low

Task Breakdown — SP4-01 (Complaint Resolution)

Task ID	Task	Est. Hours	Assigned To
T-15.1	Design complaint resolution workflow UI	3	Dev A
T-15.2	Build backend for closing/resolving complaints	5	Dev B
T-15.3	Test complaint resolution flow	2	Dev C

Task Breakdown — SP4-02 & SP4-03 (Reports & Delivery Monitoring)

Task ID	Task	Est. Hours	Assigned To
T-16.1	Design analytics dashboard UI	5	Dev D
T-16.2	Build reporting backend (aggregation queries)	7	Dev C
T-16.3	Test report accuracy	3	Dev A

Task Breakdown — SP4-04 (System Settings)

Task ID	Task	Est. Hours	Assigned To
T-17.1	Design settings config UI (service areas, operating hours)	3	Dev B
T-17.2	Build backend for settings storage	4	Dev D
T-17.3	Test settings changes reflect system-wide	2	Dev C

Task Breakdown — SP4-05 to SP4-09 (Remaining Low Priority Items, Final Integration & Testing)

Task ID	Task	Est. Hours	Assigned To
T-18.1	Build branch performance dashboard (orders, revenue, ratings)	5	Dev A
T-18.2	Build review and ratings management view	4	Dev B
T-18.3	Build monthly revenue report generator	4	Dev D
T-18.4	Build delayed-branch detection logic	4	Dev A
T-18.5	Build system log monitoring view	4	Dev B
T-18.6	Final integration, testing & bug fixes	6	Dev C, Dev D
